Leviticus 23:15-16    Leviticus 23:9-16

ok

\* YHWH gave us dates for all His Appointed times (Lev. 23:1-44) except (1). SHAVUOT (Feast of Weeks or Harvest or First Fruits), (2). Every 3rd, 7th, and 49th Year (Lev. 25:1-55; Deut. 14:28-29, 26:12-19) and beginning and ending time of each Scriptural Month and Year (Deut. 11:11-12; Num. 10:10). He commanded to count 50th day (Leviticus 23:9-21) and every Scriptural Lunar Month and year (Deuteronomy 11:11-12). 50th day falls always on 6th Sivan if we count from 6 PM of 15th Abib. So the date of Shavuot is fixed if we count from 6 PM of 15th Abib. But this is not true because He commanded to count us from the end of Weekly Sabbath only (6 PM of Saturday). The date of Shavuot is varying always from 5th Sivan to 11th Sivan if we count from 6 PM of Saturday. So please study the below examples and discover the truth (Romans 8:9; 1 Cor. 11:17-19).

Both the servants of YHWH and Satan are calculating 50th Day etc. (Mark 9:38-40; Acts 15:24; 2 Cor. 11:13-15).

NOTE: Every Abib can't take 29 days because there are 1 to 49 Abibs if you count according to 49 - Year Luni Solar Cycle. And there are 1 to 19 Abibs if you count according to 19 - Year Luni Solar Cycle.

NOTE: 50TH DAY = 10th Sivan = Feast of First Fruits = 6 PM of 7th Jun., to 6 PM of 8th Jun., CE 2014 according to this Method.

\* 50th Day falls on 10th Sivan in CE 2014 according to the Scriptures (1 Thess. 5:21)!

So 50th day (Shavuot) occurs between 5th Sivan and 11th Sivan only according to Leviticus 23:9-16. So the Sheep of YHWH only KNOWS all His Appointed times (John 3:20-21, 10:1-6, 26-28, 18:37-38; 1Cor. 11:17-19)

Note: You can get Shavuot on 6th Sivan in every year even if you count from 6 PM of 15th Abib because days per month varies according to 606 months. For details, please study under 0b00 in our website.

Yahweh, the Creator commanded to count for 7 times 7 years as 49 years to get 50th Civil Year (Leviticus 25:8-9). Please count tell me. How many days, months and years are there in 49 Years?

How can you findout 6th Sivan unless you count 606 months, 17,896 days and 49 years in 7 times 7 years? Don't be cheated by false Prophets who are the tools in the hand of Satan (1 Timothy 4:1-2; 1 Jn. 4:1-6).
