

CAN YOU DARE ? ? ? ?

Mr. Nilesh Nilkanth Oak (<https://twitter.com/NileshOak>), Mr. Saradh Uphadyay (<https://www.drikpanchang.com/dashavatara/rama-navami/lord-rama-date-of-birth.html>) and all Panchang writers, and some so-called geniuses are misleading Hindus with an inaccurate concept (The Hindu Calendar = 60-Year Luni Solar Cycle = 30-Year Luni Solar Cycle). All these so-called geniuses didn't know the beginning and end of each Yuga out of 4 YUGAS (Satya Yuga, Treta Yuga, Dwapara Yuga, and Kali Yuga) to this day. These famous wise men didn't realize that the 30 – Year Luni Solar Cycle is repeated in the 60 – Year Luni Solar Cycle to this day. These wise men didn't realize that Hindu Synodic Month (HSM = 29.5309973 days = 29d, 12h, 44m, and 38.1671159s) is NOT equal to NASA's Synodic Month (NSM = 29.53058885 days) to this day. These wise men didn't obtain HSM and HTY from the formula of the Hindu Calendar to this very day. These wise men didn't realize that HSM (29.5309973 days) and HTY (365.2 days) are Constant forever even though Brahma determined the Hindu Calendar Formula. And these wise men didn't know the Luni Solar Difference Per Month [{LSDPM = HTM (Hindu Tropical Month) – HSM (Hindu Synodic Month) = 30.43333333 days – 29.5309973 days = 0.902336028 days}]. These wise men didn't know that each Tithi (HSM ÷ 30 days = 0.984366576 days = 23 hours, 37 min., and 29.2722372 seconds) to this day. And these wise men didn't know that the "THE EXTRA MONTH" ends as soon as either the 33rd HSM ends or the 32nd HSM ends. These wise men didn't know that each Tithi was Constant forever. These wise men didn't learn from the relationship (60 – Year Luni Solar Cycle) between the Earth, the Sun, and the Moon. These wise men didn't realize that Hindus should not confirm any Historical event between Satya Yuga and Kali Yuga with the help of NASA's Synodic Month. So, how can these wise men calculate the Date Of Birth (DOB) of Rama and Krishna?

This is the principle of the Hindu Calendar if Lord Brahma Created the Universe: The Earth completes 60 revolutions around the Sun in a circular orbit at the same time the Moon completes 742 revolutions around the Earth in a circular orbit. This principle is Constant if Brahma is the Creator.

This is the Formula of the Hindu Calendar if Lord Brahma Created the Universe: 1 Cycle = 60 Years = 60 Luni Solar Years = 60 – Year Luni Solar Cycle = 742 Hindu Synodic Months = 21,912 days = 21,912 daytimes + 21,912 nights = 60 Tropical Years = 60 – Year Tropical Cycle = 720 Hindu Tropical Months = Constant forever. Note: HTY (365.2 days = 365 days, 4 hours and 48 minutes = Not suitable to get accurate Seasons and Years.) is not giving accurate Seasons. So HSM is also not giving accurate Seasons, and Phases of the Moon because the Moon gives Phases of the Moon, Months, Seasons, and Years. The Seasons that occur according to the Sun (60 – Year Tropical Cycle) should be equal to the Seasons that occur according to the Moon with the help of the Luni Solar Calendar (60 – Year Luni Solar Cycle). Please note this point (Principle). Moreover, Astronomers of NASA and IAU didn't realize that Synodic Month (29.53058885 days) and Tropical Year (365.24219 days or anything) can't give accurate nights, daytimes, Phases of the Moon, Seasons and Years. **HSM (Hindu Synodic Month)** = Days per 60 – Year Luni Solar Cycle ÷ HSM per 60 – Year Luni Solar Cycle = 21,912 days ÷ 742 Months = 29.5309973 days. **HTY (Hindu Tropical Year)** = Days per 60 – Year Tropical Cycle ÷ 60 Years = 21,912 days ÷ 60 = 365.2 days (Note: HTY should be 365.2244898 days to get accurate Seasons. Both the HSM (29.5309973 days) and HTY (365.2 days) didn't give accurate Phases of the Moon, and Seasons when Julian Calendar was proposed in 46/45 BCE. For scientific evidence please see the 850th page. Ugadi didn't occur at the right Season but 1st Abib occurred at the right Season.

So, how can these wise men calculate the DOB (Date Of Birth) of Lord Rama and Lord Krishna without knowing the above principles and formula of the Hindu Calendar? Are not these wise men misleading Hindus under the veil of the Hindu Calendar or Panchag or Historical events related to "Ramayana and Bharata"? Please think for a while. So, these wise men were confused by the Hindu Calendar (30/60 – Year Cycle) which gives inaccurate Hindu Synodic

Month as 29.5309973 days and inaccurate Hindu Tropical Year as 365.2 days. Every fake God, fake Goddess, and fake Creator will be exposed if the Religious Calendar (Jewish, Hindu, Muslim, and so on) doesn't give accurate nights, daytimes, Phases of the Moon, Seasons, and New Year. Jews borrowed 19 – Year Cycle after CE 136 (Deut. 28:58-68; Luke 21:24; Hosea 6:1-2). Even Israelis have not used the 49 – Year Luni Solar Cycle since CE 1948 though it was written in Leviticus 25:8-9. Even Hindu Panchang writers and so-called geniuses didn't use the Hindu Calendar (60 – Year Luni Solar Cycle) in their calculations. So, the World has been misled by false religious leaders and fake Astronomers. Astronomers didn't verify their discoveries (NSM and NTY) in terms of 49 – Year Luni Solar Cycle and 49 – Year Tropical Cycle. That's why Astronomers didn't prove the actual Creator with Astronomy determined by the actual Creator. 49 YEARS is the accurate relationship between the Sun, Moon, and the Earth. This is the relationship (49 years) that gives accurate nights, daytimes, Phases of the Moon, Months, Seasons, and Years since 4234 BCE (Genesis 1:1-31; 2:1-3; Leviticus 25:8-9; Jeremiah 33:19-26).

Another Formula of the Hindu Calendar if Lord Brahma Created the Universe: 1 Cycle = 30 Years = 30 Luni Solar Years = 30 – Year Luni Solar Cycle = 371 Hindu Synodic Months = 10,956 days = 30 Tropical Years = 30 – Year Tropical Cycle = 360 Hindu Tropical Months = 30 – Year Tropical Cycle = Constant.
HSM (Hindu Synodic Month) = Days per 30 – Year Luni Solar Cycle ÷ HSM per 30 – Year Luni Solar Cycle = 10,956 days ÷ 371 Months = 29.5309973 days.
HTY (Hindu Tropical Year) = Days per 30 – Year Tropical Cycle ÷ 30 Years = 10,956 days ÷ 30 = 365.2 days (Not suitable to get Seasons. So HSM/HTY = Fake).
So, it observed that the 30 – Year Luni Solar Cycle is repeated in the 60 – Year Luni Solar Cycle but Brahma didn't realize to this day. Who can regulate the Hindu Calendar? 30 - Year Cycle proved that Brahma is not the actual Creator because of the inaccurate relationship between the Earth, the Sun, and the Moon. Please note that the Creator is not a fool like mortal man to establish a foolish concept in the beginning like 30 - Year Luni Solar Cycle or 60 - Year Luni Solar Cycle or 19 – Year Luni Solar Cycle or 50 – Year Luni Solar Cycle or 1- Year Lunar Cycle. No one is asking for proof and explanation of any historical event (date) between SATYA YUGA and KALI YUGA to confirm scientifically (Astronomically) whether it is true or false. That was why fake calculations are accepted as true by the innocents. According to the Hindu Calendar, Lord Rama was NOT born on 29th November, 12240 BCE (Not Navami of Sukla Paksha of Chaitra Month but Thrayodashi of Shukla Paksha of Pausha Month). For proof, please see from the 1263rd page to the 1264th page. Lord Krishna was not born on 19th July 3228 BCE (Not Ashtami of Krishna Paksha of SRAVAN Month but Panchami of Krishna Paksha of KARTIKA Month). For the proof, please see the 204th page to 205th page. Sri Krishna didn't go to Vaikuntha on 18th February 3102 BCE (See the 230th page), and so on. This is the time to verify the DOB (Date Of Birth) of the “Lord Jesus Christ, Lord Rama, and Lord Krishna” with the help of MS Office Excel, Calculator, Astropixels Calendar Date converter, and History. For the date of birth of Lord Jesus Christ (Yahweh was manifest in the flesh as Yahshua the Messiah), please study from the 859th page to the 866th page and 1299th page. For the date of birth of Lord Rama, please see from the 1349th page to the 1366th page and the 1370th page. For the date of birth of Lord Krishna, please see from the 203rd page to the 231st page, and from the 1368th page, and the 1369th page. For **4 YUGAS**, please see from the 1340th to the 1348th page, for Jewish Chronology, see the 1299th page, For Historical Events, see the 1293rd to the 1340th page, For Bhogi, Sankranti, Independence Day of India etcetera, see the 1302nd page to 1338th page, For the Hindu Calendar, NASA data (NASA's Calendar), Muslim Calendar, Gregorian Calendar and Yahweh's Calendar, see from the 1313th to 1339th page. In every Religion, so many religious leaders are misleading people Worldwide under the veil of science, God's festivals, the Creator, and Eternal life after death. So many Christian leaders have been misleading Christians that the 1st of January is the New Year, Lord Jesus Christ (Yahshua the Messiah) was born in Winter in December, that the Lord Jesus Christ was Resurrected on Sunday, and so on. The Jewish Messiah was born in Summer in Bethlehem in Israel on the Full Moon Day of Ethanim of 4235th Year or 15 – 1 – YB 4235 (10th November 1 BCE (At 9 PM, Wed.) – Matt. 2:1-5; Luke 1:1-38; 2:1-52; 3:1-23; 1 Chr. 24:1-19. Note: (1). 15 = 15th day; 1 = 1st Civil Month =

Ethanim = 7th Religious Month; YB = Years counted from 6 PM on 23rd Feb., 4234 BCE, Tuesday at 35° E (Date of the Creation of the Sun, Moon, and stars); 4235 = 4235th Year was going on. (2). Satan is misleading all Gentiles Worldwide that the Jewish Messiah was born on 25th December in the Winter (2 Corinthians 4:1-4; 11:1-15; 2:17; 1 Timothy 4:1-2 etc.). Summer occurred from August to December in Israel when Augustus ruled the World (Luke 2:1-7). The Jewish Messiah was Crucified in Winter in Israel before the Full Moon Day of Abib of 4267th Year (14 – 7 – YB 4267 = 13th May CE 33, Wed., at 9 AM) - Mark 15:25; Luke 22:1-20; John 18:18-39. The Jewish Messiah was Resurrected in the Spring in Israel on the 17th day of Abib of 4267th Year (17 – 7 – YB 4267 = 16th May CE 33, Sat., before 6 PM) – Matt. 12:38-40; 28:1, 16-17; 27:63-66; Luke 23:50-56; 24:6-21; 1 Cor. 15:1-11; Acts 4:27-28 etc. Astronomers are misleading the World with the inaccurate Synodic Month (29.53058885 days) and with the inaccurate Tropical Year (365.2421897 days or 365.24219 days). Note: 1 Day = 86,400s seconds in every Religion but the Synodic Month varies in every religion.

<https://astropixels.com/ephemeris/calendarconverter.html>, <https://jayasreesaranathan.blogspot.com/2018/01/challenging-nilesh-oaks-dates-of.html>, https://en.wikipedia.org/wiki/Yuga_Cycle, https://en.wikipedia.org/wiki/Julian_calendar

CONCLUSION: The calculations of Mr. Nilesh Nilkanth Oak, Mr. Saradh Uphadyay, and every Panchang Writer are baseless because these geniuses didn't use Hindu Synodic Month (HSM = 29.5309973 days) and Hindu Tropical Year (365.2 days). What is the necessity to use NASA's Synodic Month (29.53058885 days) between Satya Yuga and Kali Yuga? Did NASA or IAU exist before Kali Yuga? Hindu Religious leaders, Panchang writers, Dr. P V Vartak, Prof. C V Vaidya, Sri. Kote Venkatachalam, Mr. Pargiter, Mr. Pushkhar Bhatnagar, Mr. Nilesh Nilkanth Oak, Mr. Saradh Uphadyay, Mr. BV Ramana and so on were confused by the Hindu Calendar (30 – Year Luni Solar Cycle = 60 – Year Luni Solar Cycle). For example, Panchag writers calculated that 9th April CE 2024 is Ugadi instead of 11th March CE 2024 (See the 1269th page)? All the above so-called geniuses didn't realize that each Hindu 60 – Year Luni Solar Cycle begins and ends at 6 AM or 6 hours. Please see the beginning and end of each Hindu 60 – Year Cycle from the 169th page to the 179th page under JEWISH HSITORY on www.yhwhcalendar49.com. Religious cheating is so common in every Religion because people are fond of lies. Please give me Hindu History/Chronology from the first man to the Roman Empire just as recorded under “JEWISH HISTORY” on www.yhwhcalendar49.com then I will tell you the date of Birth of Lord Rama and Lord Krishna. Please note that the Roman Empire ruled the World from 146 BCE to CE 1798. See under Jewish History. **Accurate History (4234 BCE - CE 100), the principle of the Creator's Calendar, and the Prophecies (4234 BCE - CE 3136) are written in Yahweh's Book (Genesis to Luke 2:1-7; 3:1-33; Leviticus 25:8-9; Isaiah 34:16). So, the principle of Yahweh's Luni Solar Calendar (49 Years) proved that the actual Creator is Yahweh** [Genesis 1:13-19; 2:1-3 (7-Day Cycle); Leviticus 25:8-9 (Formula: 49 – Year Cycle); Jeremiah 33:19-26; 31:35-37; 32:26-27 (Precision); John 11:9; Isaiah 34:16; 1 Tim. 3:16; Isaiah 45:12-21 etc.]. **The Jewish Messiah is coming soon to rule His chosen people and to punish all the wicked. Yahweh's plan is finished before 4234 BCE** (Ephesians 1:1-12; Rev. 20:15; Acts 4:27-28). Proof: Mark 8:36-38; 2 Cor. 5:10; **1 Cor. 10:5-12**; Daniel 4:28-37; 1 Peter 4:17-19; 2 Peter 2:1-17; James 5:1-5; Jeremiah 25:29; 9:25-26; Isiah 66:17; Revelations 20:15; 21:8; 8:11; 9:1-21; 11:13; 14:10-11; 16:2-11, 21; 13th to 22nd Chapter; Matthew 12:24-37; 24:21; 7:19; 8:10-13; 11:20-24; 13:39-443; 2 Thess. 1:4-12; Hebrews 10:26-31; Jude 3-13; Daniel 1st to 12th Chapter; Deut. 28:15-68. **Genesis 22:17-18 is Fulfilling 1948 - 2136.** Genesis 28:14; 48:1-21 = **Ephraim Tribe** = The UK = The British Empire including Ireland, Canada, Australia, New Zealand, and a part of South Africa = Genesis 48:1-22 = Fulfilled. The USA = **Manasseh Tribe** = Deuteronomy 33:13-17+Gen. 49:24 (Nation + Military) = Fulfilled. **Judges 2:1-5** = Fulfilling 1948 – 2136. So, this is the time to discover the actual Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle.
